Next 30 Days of Season 31

Announcements ChaoticLu Aug 7, 2023

The first 30 days of the season have already passed, so get ready for what's new to come in August! As we said at the start of this season, we have planned a series of exciting things for the community and now, let's hop into our newest updates!

Celebrating International Day of the World's Indigenous Peoples

On August 9th we celebrate International Day of the World's Indigenous Peoples. Let's come together to honor the contributions and achievements of indigenous people by sharing some Microsoft community selections featuring creators, leads, and cultures, so hop into our Quests section to check out our recommended Indigenous community games, such as *Carto* and *Trek to Yomi, and more!*

Xbox Ambassador Community Champions – Helping to Make Gaming Safer

Recently, the Xbox Ambassadors Program Community Champions played an big role in helping Xbox become safer with our Voice Reporting Feature by offering feedback during development as well as insight that helped with its release.

Voice Reporting is an important new, quick-and-easy feature that gives players the ability to capture a 60-second voice clip of an in-game voice incident that they believe violates our Community Standards and submit it as evidence to our Xbox Safety team for review.

With this new capability, player safety on Xbox is increasing as Xbox's player reporting and evidence capabilities now cover all content, including text, image, video, and voice.

To start with, reactive voice reporting will be available to console players in select English-speaking markets (US, Canada, Great Britain, Ireland, Australia, New Zealand) via the Xbox Insider Program. As the feature gets usage we'll share updates, data, and insights via the bi-annual Transparency Report.

Wanna know more about it? You can find the full update on the Xbox Wire as well as check out some quotes from your fellow Ambassadors while you're there!

Bringing YOUR voice into our products

Last spring you saw us launch our new Xbox Ambassadors research panel. We have had thousands of Ambassadors join and have already had over 10 Microsoft teams engaging with the Program to bring your voices into our products at Xbox – THANK YOU! Being player focused is a huge part of who we are at Xbox and the entire organization is really excited about engaging with you – including Phil Spencer, CEO of Microsoft Gaming, as he proudly holds up his Xbox Ambassador Player Connection cup showing off the back and the quote "Player Feedback Fuels me."

For anyone not yet signed up for the Xbox Ambassadors Research Panel we encourage you to do so, as this is your opportunity to bring YOUR voice into Xbox products and earn XP as an Ambassador while doing it! To Join, visit the Xbox Ambassador Research Panel registration form.
